| Statistics: Solve problems |  |  |  | Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity <br> Ask and answer questions about totalling and comparing categorical data | Solve one-step and two-step questions (e.g. 'How many more?' and 'How many fewer?') using information presented in scaled bar charts and pictograms and tables | Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | Solve comparison, sum and difference problems using information presented in a line graph | Calculate and interpret the mean as an average |

Algebra Progression

|  | Nursery | Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Algebra |  |  | Solve one-step problems that involve addition and subtraction, using concrete and pictorial representations , and missing number problems such as $7=?-9$ | Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems | Solve problems, including missing number problems |  |  | Use simple formulae <br> Generate and describe linear number sequences Express missing number problems algebraically <br> Find pairs of numbers that satisfy an equation with two unknowns <br> Enumerate possibilities of combinations of two variables |

NOTE: although algebraic notation is introduced in Year 6, algebraic thinking starts much earlier as exemplified by the 'missing number' objectives from Years 1,2 and 3 .
